LARS & MIA DETECTIVE ADVENTURES

Lars & Mia's Stonehenge Detective Sampler

FREE 8-PAGE PRINTABLE ACTIVITY PACK

For curious kids ages 7-10

YOUR MINI CASE

- Make your Detective ID.
- Explore Stonehenge facts and color the scene.
- Solve the maze and the word search.
- Check the two solutions, then follow the next clue!

Print single-sided at 100% / Actual Size. Use pencils or crayons. Activity pages keep their original page numbers from the full book.

Name: _____

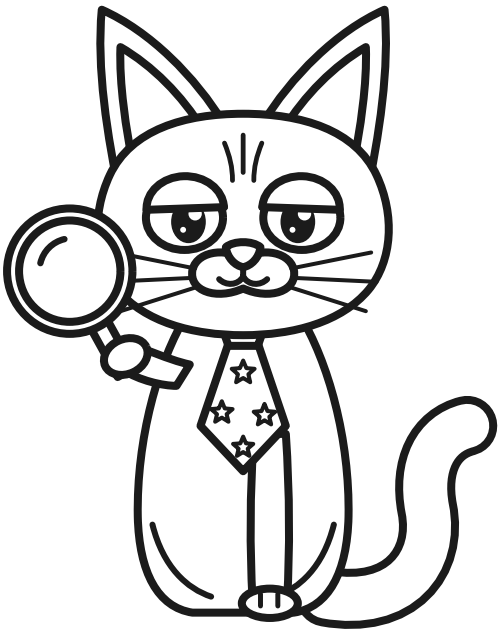

Age: _____

Detective skill: _____

Favorite mystery: _____

Lucky number: _____

My detective paw print (or fingerprint!)

Lars says: “A detective never loses. A detective is temporarily investigating.”

FACT FILE · MYSTERY 1

Stonehenge

England, United Kingdom

THE BIG QUESTION

What was the giant stone circle for?

Where in the world?

WHAT WE KNOW

- ☑ People built Stonehenge in stages, starting about 5,000 years ago.
- ☑ The big sarsen stones came from about 15 miles (25 km) away. The bluestones came from Wales.
- ☑ The Altar Stone came from northeast Scotland, at least 430 miles (700 km) away (a 2024 study).
- ☑ The stones line up with the midsummer sunrise and the midwinter sunset.

WHAT WE STILL WONDER

- ? What was Stonehenge used for? A calendar, a meeting place, a place to honor the dead, or all of these?
- ? How exactly did people move such heavy stones so far?

BIG NUMBER

About 25 tons

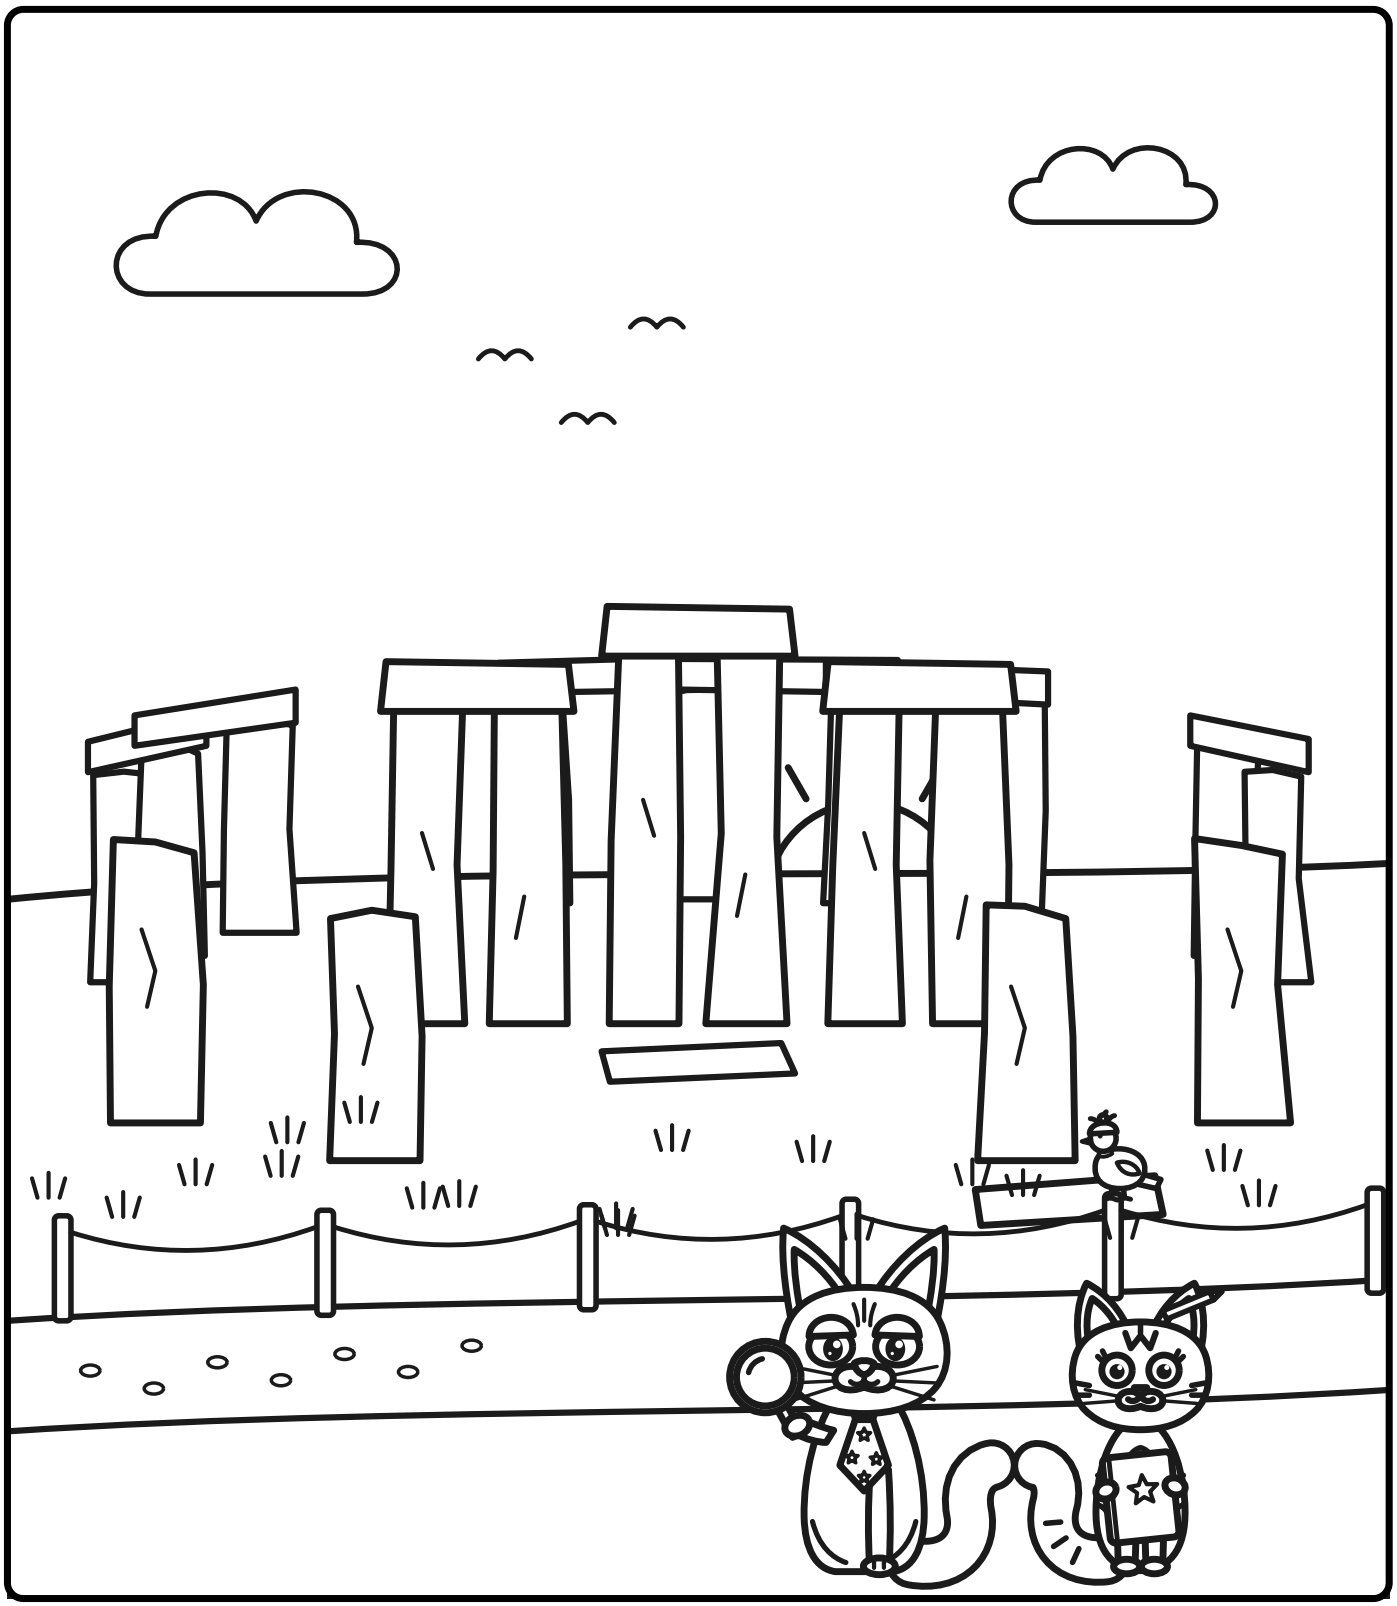

the weight of the biggest sarsen stones, as heavy as four elephants.

WORD TO KNOW

Trilithon

two standing stones with a third stone lying across the top, like a giant doorway.

If I could ask an archaeologist one question about this place, I would ask:

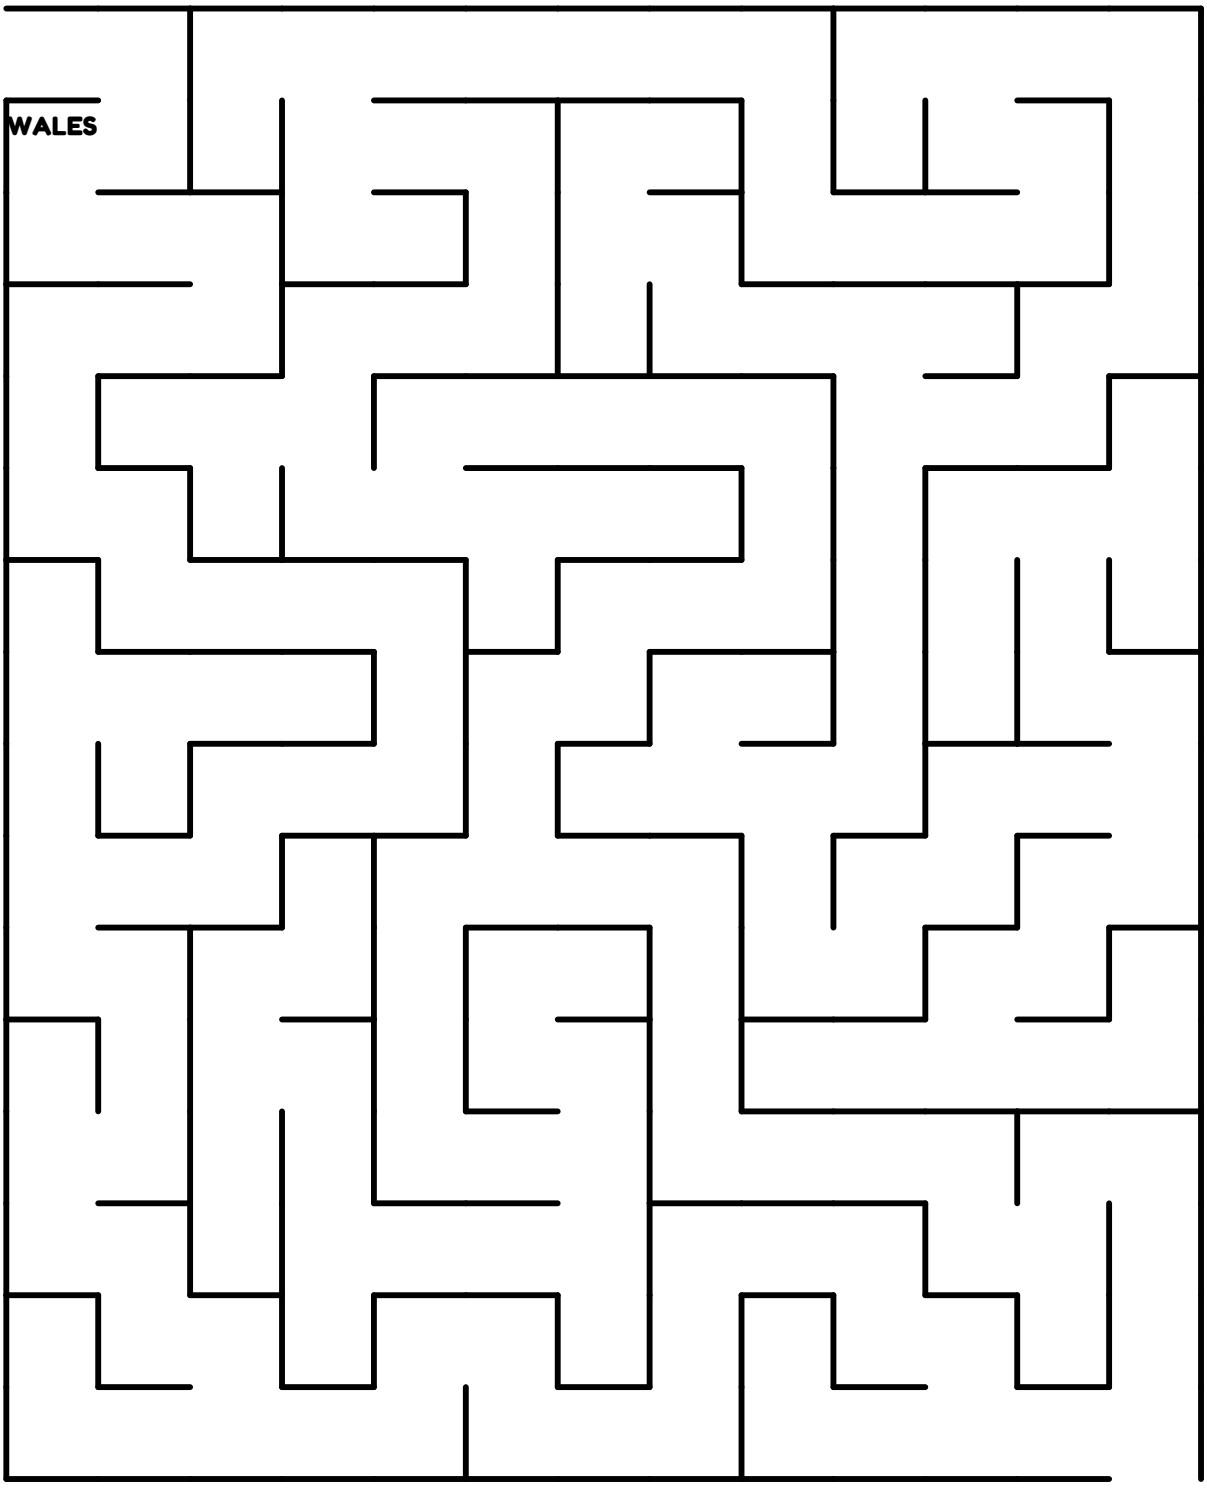

Color the picture! Pierre is hiding somewhere, wearing a wool hat. Can you find him?

DETECTIVE PUZZLE · MYSTERY 1

The Bluestone Journey

Help the bluestone travel from the hills of Wales to Stonehenge. Watch out for dead ends!

DETECTIVE PUZZLE · MYSTERY 1

Stone Circle Word Search

Find and circle these words. They go across, down, diagonally, and some go backwards!
